drawing on the underrepresentation of the global south in global knowledge production with a focus on the existing inequalities the book highlights the importance of postcolonial narratives within global southern epistemologies in english language teaching elt and teaching english to speakers of other languages tesol chapters consider the epistemological landscapes of these fields their dedication to english teaching and english related topics and the intersection of the coloniality of language and the supremacy of english worldwide the book explores the type of discussion that is needed to advance a more

nuanced understanding of sociopolitical circumstances and how they shape our academic practices and theorizations of elt and tesol in doing so chapters examine the current geopolitics of knowledge that are found in journal publishing citing how it favours the global north and further exploring ways of decolonizing language practices teaching approaches and research cultures calling for greater visibility and recognition of southern ways of knowing within elt and tesol practice and research the book will be an essential reading for scholars researchers and students of tesol elt applied linguistics and multilingualism

this book deals with curriculum issues and problems and one of its aims is to help practising teachers to clarify their own theory and practice in relation to the curriculum the contributors look at three popular theories or sets of assumptions held by teachers the child centred view of education the subject centred or knowledge centred view and the society centred view each of these views is incomplete on its own but each has something to contribute in planning a curriculum as a whole and the authors emphasize that a comprehensive theory of curriculum planning would take into account the individual nature of the pupil and also recognize the social value of education this kind of comprehensive curriculum planning has been described as the situation centred curriculum based on the idea that schools should be concerned with preparing the young for the world as it will be when they leave school one of the purposes of education is to develop a child s autonomy he or she must learn to cope with the variety of situations which will face him or her in society thus many different approaches must be employed in establishing a basis for the complex task of curriculum planning the book draws on the disciplines of philosophy psychology history and sociology to suggest new approaches to curriculum objectives and evaluation it considers the theoretical bases of curriculum models practical issues of planning evaluation and pedagogy and discusses some urgent contemporary questions about the politics and control of the curriculum

unique in the way it links five major career development and choice theories to a fictional case client this user friendly text is ideal for counselors engaged in helping clients make wise career choices thoroughly updated the third edition of career theory and practice takes a multicultural approach as it blends theory practical examples and specific cases helping readers apply a wide range of career development theories to counseling clients

this book offers a model to bridge the differences between political theorists and social scientists focusing on deliberative practices

theory has been used widely in the field of second language writing second language writing specialists teachers researchers and administrators have yet to have an open and sustained conversation about what theory is how it works and more important how to practice theory practicing theory in second language writing features fourteen essays by distinguished scholars in second language writing who explore various aspects of theoretical work that goes on in the field

this introductory text explains and places in an historical context the development theories behind contemporary debates such as globalization the author

describes and explains how approaches to development have changed over time and how approaches vary spatially

today's clinical social workers face a spectrum of social issues and problems of a scope and severity hardly imagined just a few years ago and an ever widening domain of responsibility to overcome them theory and practice in clinical social work is the authoritative handbook for social work clinicians and graduate social work students that keeps pace with rapid social changes and presents carefully devised methods models and techniques for responding to the needs of an increasingly diverse clientele following an overview of the principal frameworks for clinical practice including systems theory behavioral and cognitive theories psychoanalytic theory and neurobiological theory the book goes on to present the major social crises problems and new populations the social work clinician confronts each day theory and practice in clinical social work includes 29 original chapters many with carefully crafted and detailed clinical illustrations by leading social work scholars and master clinicians who represent the widest variety of clinical orientations and specializations collectively these leading authors have treated nearly every conceivable clinical population in virtually every practice context using a full array of treatment approaches and modalities included in this volume are chapters on practice with adults and children clinical social work with adolescents family therapy and children's treatment groups other chapters focus on social work with communities affected by disasters and terrorism clinical case management cross cultural clinical practice psychopharmacology practice with older adults and mourning and loss the extraordinary breadth of coverage will make this book an essential source of information for students in advanced practice courses and practicing social workers alike
